

MIHIR KULKARNI

Mumbai, Maharashtra, India

+91-9326600831 ~ mih.kul.work@gmail.com ~ linkedin.com/in/mihir2005 ~ github.com/Mihirkool

Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University <i>Bachelor of Technology in Computer Engineering (Minor: Artificial Intelligence), CGPA: 9.79/10</i>	July 2023 – Present <i>Nerul, Navi Mumbai</i>
Kirti M. Doongursee College of Arts, Science and Commerce <i>Higher Secondary Certificate (12th Grade), Percentage: 70.17%</i>	June 2021 – March 2023 <i>Dadar, Mumbai</i>

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript
Frameworks: TensorFlow, React, Scikit-learn, OpenCV, MediaPipe
Tools: Git, SQL, Power BI, Figma, Canva, Adobe Photoshop
Technologies: Machine Learning, Deep Learning, Data Analytics, Web Development, Computer Vision

Projects

- Miraki Digital Art Marketplace** | *React, Node.js, MongoDB, Google Maps API, Tailwind CSS* [Link](#) **Jan 2025 – May 2025**
- Built a full-stack digital art marketplace with live artist discovery using Google Maps API, separate frontend interfaces for users and administrators with real-time content management, JWT-based authentication, and deployed on Vercel with MongoDB and ImageKit CDN for optimized media delivery
- Weather Prediction Clusters** | *Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn* [GitHub](#) **Oct 2024 – Nov 2024**
- Developed an unsupervised machine learning model using K-Means clustering to group 96,000+ historical weather records into distinct patterns; applied data preprocessing including standardization and feature engineering on temperature, humidity, wind speed, and pressure variables; determined optimal cluster count using Elbow Method and Silhouette Score analysis
- CAM-MOUSE Touchless Control** | *Python, OpenCV, MediaPipe, PyAutoGUI* [GitHub](#) **Nov 2024**
- Built a computer vision application for touchless cursor control using MediaPipe 21-landmark hand tracking with gesture recognition for left-click and right-click actions, configurable sensitivity and smoothing parameters, and a real-time camera overlay with low-latency performance

Work Experience

- Navodita Infotech** **May 2026 – June 2026**
Machine Learning Intern *Mumbai, India*
- Developed and trained machine learning models for image classification using Convolutional Neural Networks (CNN), text classification using NLP techniques including sentiment analysis, and object detection; used Python, TensorFlow, and Scikit-learn throughout the project lifecycle including model evaluation, hyperparameter tuning, and performance optimization
- RV Networking** **June 2025 – Oct 2025**
Graphic Design Intern *Mumbai, India*
- Created marketing materials including posters, banners, and promotional content using Canva, Figma, and Adobe Photoshop; collaborated with clients to deliver brand-consistent design solutions tailored to business requirements
- Edunet Foundation** **Dec 2024 – Jan 2025**
Data Analytics Intern *Mumbai, India*
- Completed TechSaksham Program internship in collaboration with SAP and Microsoft focusing on Industry 4.0 technologies; applied Python, SQL, Linux, and Power BI to solve real-world data analytics challenges

Leadership and Activities

- CSI-RAIT Student Chapter** **July 2025 – Present**
Design Head *Navi Mumbai, India*
- Managed social media presence and created visual content for events including posters, banners, and promotional reels; volunteered at Sankalp 2025 national-level ideathon coordinating event logistics and guiding participants
- CSI-RAIT Student Chapter** **June 2024 – May 2025**
Design Co-Head *Navi Mumbai, India*
- Led Designaire 3.0 workshop teaching UI/UX fundamentals and Figma to 200+ participants; conducted Agile with Jira workshop for 150+ students covering Scrum workflow and sprint planning; taught C programming and aptitude skills in Grassroots 2.0 workshop for 100+ students

Certifications

TechSaksham Internship – Edunet Foundation (SAP, Microsoft) [Link](#) | **MS Applied Skills** – Microsoft [Link](#) | **Data Science** – IBM edX [Link](#)
